

Indulge in a Tradition Reimagined: Fiji's Very Own High Tea Experience at Corner Cafe

Step back in time and indulge in a tradition with Corner Cafe's High Tea, where elegance meets history. Inspired by the cherished English custom introduced by the 7th Duchess of Bedford and popularized by Queen Victoria, our High Tea is a nod to the nation's beloved beverage and its royal endorsement. Delight in a lavish selection of crustless sandwiches—cucumber, smoked salmon, and cheddar cheese—paired with exquisite cakes, regional specialties, pastries, and scones. At Corner Cafe, we celebrate the refined legacy of afternoon tea with a modern twist, offering you a unique chance to immerse yourself in a piece of culinary history. Our High Tea isn't just a meal; it's an experience designed to create lasting memories and the timeless joy of shared indulgence.
